This document replaces the Teacher's Guide For Secondary Language Arts and Annotated List of Texts and Supplement (16-3227A and 16-3229A). The materials listed in this document were compiled from three sources: the Annotated List mentioned above, the suggested materials in all the Secondary Language Arts guides, and the list of newly approved materials.

The Ministère de l'Éducation officially authorizes student textbooks and other complementary materials which are considered to be suitable for classroom use on a frequent basis. Lists of authorized materials are published by the Ministère several times a year under the title, Teaching Materials Authorized. Fiction, non-fiction, anthologies and many types of reference materials are not authorized by the Ministère.

This selected bibliography is not exhaustive, nor does it represent an "authorized" list. When selecting materials from this bibliography, teachers should be careful to choose material that is appropriate for the needs and interests of their students in the particular school community. All the material in this bibliography is not necessarily appropriate for all students in all Quebec communities.

This bibliography has been divided into three sections: Student Texts, Student References, and Teacher References. Each entry in the bibliography is organized in such a fashion as to help teachers select materials most suitable to their particular students' individual needs and interests. For each title, not only has the bibliographic detail been provided but also the recommended level for use and the name of the guide(s), if applicable, in which the material was suggested. For the student texts, an annotation about the content has been included as well.

The following formats and/or genres have also been provided in the bibliography to aid teachers in making their selection(s):

- Anthology - different genres
- Short story
- Poetry
- Drama
- Novel
- Non-fiction
- Kit - provides a variety of literary materials
- Media
